

Skills and knowledge progression - Music

National Curriculum
Aims and purpose

School aims - skills, attitudes and knowledge that we would like all children to develop on their journey through the school

Music is a universal language that embodies one of the highest forms of creativity. A high-quality music education should engage and inspire pupils to develop a love of music and their talent as musicians, and so increase their self-confidence, creativity and sense of achievement. As pupils progress, they should develop a critical engagement with music, allowing them to compose, and to listen with discrimination to the best in the musical canon.

Aims

- perform, listen to, review and evaluate music across a range of historical periods, genres, styles and traditions
- learn to sing and to use their voices, to create and compose music on their own and with others, have the opportunity to learn a musical instrument
- understand and explore how music is created, produced and communicated, including through the inter-related dimensions: pitch, duration, dynamics, tempo, timbre, texture, structure and appropriate musical notations.

We believe that music is an incredibly powerful form of communication that can shape the way we feel, think and act. Quality music teaching helps the body and the mind work together. Exposing children to music during early development helps them to learn the sounds and meanings of words. Dancing to music helps children build motor skills while allowing them to practice self-expression. We believe that every child should have the opportunity to discover their musical potential and we aim to nurture and encourage musical development across the school.

Our curriculum (which is built around the Charanga Music School programme and Sing Up scheme) ensures that our children gain a firm understanding of what music is through listening, singing, playing, evaluating, analysing, and composing across a wide variety of historical periods, styles, traditions, and musical genres. This broad diet of works, covering everything from baroque to Stormzy, develops an understanding, appreciation and respect for all types of music and the range of emotions and meanings that it can convey.

We also believe in the importance of performance, both to give value to music learning and to provide experiences that our children would not otherwise have access to. We therefore take part in a range of music projects (such as Newport Sings) as well as producing high quality school productions and assemblies involving every member of school. We want every child at SSPP to become more musical and learn what musicality means.

Links to EYFS:

Expressive Arts & Design - Exploring & Using Media

- Begin to build a repertoire of songs and dances.
- Explore the different sounds of instruments.
- Sing songs, make music and dance, and experiment with ways of changing them. They safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.

Expressive Arts & Design - Being Imaginative

- Use what they have learnt about media and materials in original ways, thinking about uses and purposes.
- Represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.
- Create movement in response to music.

Experiences every child should have:

- Sing on stage to a (large) audience, both through school productions and projects such as Big Sing projects (Newport Sings/ Telford Sings)
- Learn to play a musical instrument over an extended period of time and be given opportunities to develop this further if desired.
- Create and perform songs using a variety of instruments and technology.
- Visit large venues (eg. Concerts and theatres) and see professional musicians perform.
- Meet professional musicians and see what their journey was like to becoming a musician.
